

Duel Duo Test Plan

Overview:

Test functionality of the app.

Links:

<http://localhost:3000/>

<http://ec2-54-211-63-111.compute-1.amazonaws.com/>

Test Criteria:

1. The draw button will display 5 random bots.
2. The add to duo buttons will allow you to choose the selected bot.
3. Adding a third bot will display a message stating "You can only choose two bots!"
4. Selecting the remove from duo button will remove the bot from the Your Duo section and add it back to the Choose to section.
5. The duel button will take the two chosen bots and two random bots and choose a winner by adding the robot's total health and attack damage and then subtracting the other robot's attack damage from the defenders's health.
6. The play again button will display 5 new random bots
7. The see all bots button will display all the options of different bots.
8. Reloading the page will reset wins and losses.

Entry Criteria:

1. Test criteria provided
2. Running version provided for testing
3. Computer for testing

Exit Criteria:

1. All high priority tests have passed
2. The allotted time is up

Other details:

1. Chrome is the recommended browser.
