

# Wins Bug Report

## Description:

After clicking dule and winning against the computer's duo bots, the number of wins stays at 0 while the number of losses increase.

## Steps to reproduce:

1. Navigate to <http://localhost:3000/>
2. Click on draw
3. Add two bots to your duo by selecting add to duo.
4. Select Duel
5. Select play again and repeat steps 2-4 until you see the message "You won!"

## Expected result:

- Wins should now be 1.

## Actual result:

- Wins equal 0 and losses equal the number of times you played against the computer duo set.

## Environment:

- Google Chrome Version 111.0
- macOS Ventura 13.2
